Government Accountability Office, 2005 OCLC Number: (OCoLC)62589563 Subject: Postwar reconstruction -- Iraq. Excerpt: . . . October 2005, senior U. S. military officers noted challenges in developing effective security ministries, as well as logistics capabilities of Iraqi forces. Since March 2005, the multinational force has taken some steps to begin addressing these challenges. For example, the multinational force has embedded transition teams at the battalion, brigade, and division levels of Ministry of Defense forces, as well as in the Ministry of Interiors Special Police Commando battalions, the Civil Intervention Force, and the Emergency Response Unit. Multinational force transition teams conduct new transition readiness assessments that identify the progress and shortcomings of Iraqi forces. According to DODs report, these assessments take into account a variety of criteria that are similar but not identical to those the U. S. Army uses to evaluate its units operational readiness, including personnel, command and control, training, sustainment logistics, equipment, and leadership. The assessments place Iraqi units into one of the following four categories: Level 1 units are fully capable of planning, executing, and sustaining independent counterinsurgency operations. Level 2 units are capable of planning, executing, and sustaining counterinsurgency operations with coalition support. Level 3 units are partially capable of conducting counterinsurgency operations in conjunction with coalition units. Level 4 units are forming or otherwise incapable of conducting counterinsurgency operations. The multinational force is also preparing similar readiness assessments on the Iraqi police through partnerships at the provincial levels. These assessments look at factors that are tailored to the tasks of a police force, including patrol traffic operations, detainee operations, and case management. According . . .
