## The Ethical Aspects of Evolution Regarded as the Parallel Growth of Opposite Tendencies (Classic Reprint) (Paperback)

---

By W Benett

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Ethical Aspects of Evolution Regarded as the Parallel Growth of Opposite Tendencies The purpose of the following essay is twofold; in the first place, to enforce the view that the process of evolution, whether it be forward and in the direction of further development, or backward and degenerative, has never exhibited the isolated advance or decay of any single principle in the pairs of opposites, such as good and evil, pain and pleasure, ignorance and knowledge, and many others, which enter into the total complex of human nature; but that, on the contrary, when any one of the partners in any such a pair has either grown or decreased, the other partner too has shared the growth or decrease to an approximately equal extent. The other half of our purpose has been to trace the connexion of this principle with ethics, or the systematic representation of our judgements on human conduct. No long account of the circumstances in which this essay was produced is called for. The idea of evolution as the equal and...
