Pub Date: 2012 Pages: 319 Language: English Publisher: Beijing University of Aeronautics and Astronautics Press Optoelectronic Technology the materials Lecture part of Optoelectronic Technology and experimental operation of the guiding part of the Optoelectronic Technology Experiment. College 12th Five-Year Plan materials: Optical technology experiment experimental operating instructions part. by the 48 experiments. respectively attributed to the radiometric measurement. photodetectors. optical weak signal detection. optical modulator principle and signal demodulation method. the imaging device and system performance testing and signal processing method. the parameters of the laser measurement and its application. photovoltaic technology design and comprehensive application of most of the seven experiments. College 12th Five-Year Plan materials: photoelectric technology experiment suitable for Optical Engineering. Electronic and Information Engineering. Applied Physics. automatic control. Measurement and Testing Technology and Instruments. photoelectric detection. optical remote sensing. surveying and mapping engineering and other professional high grade undergraduate undergraduate and graduate students. photoelectric field of information technology researchers and engineering and technical personnel can also be used as a reference book. Contents: the first part of the radiometric measurement experimental measurements of the spectral energy distribution of a radiator Experiment 2 normal full-emissivity measurement experiments normal spectral emissivity measurement experiments absolute reflectance measurement experiment 5 radiant temperature. brightness temperature and color temperature measurement of the second portion of the photodetector Experiment 6 photodetector spectral responsivity measurement experiment 7 photodetector response time measurement Measurement Experiment Experiment 8 photoelectric detector detects the degree of the avalanche photodiode experiment 10 photomultiplier tube static 14 active filter 13 low-noise amplifier and time measuring the characteristics of the experimental 11 photocell bias and measuring the characteristics of the experimental 12 photodetector output signal-to-noise ratio matching the third part...
