Cengage Learning, Inc. Paperback. Book Condition: new. BRAND NEW, Theories of Human Learning (International ed of 6th revised ed), Guy R. Lefrancois, Both a serious academic text and a delightful story, this book offers a clear, readable look at a full range of learning theories from behavioral to cognitive. It also covers memory, motivation, connectionism (neural net models), and social learning and concludes with a comprehensive synthesis. Its most apparent strength is its easily accessible style, but its greatest value lies in the clarity of its concepts and its emphasis on practical applications. "Theories of Human Learning, International Edition" is narrated by a Professor. But this Professor isn't just anyone. In fact, those familiar with previous editions may conclude that he is related to Kongor and Kro, two extraterrestrials who so successfully guided students through the first two editions - or to the Old Man or, later, the Old Woman who led readers through the next editions. Wise as he is, the Professor does the job even more effectively than his predecessors in this sixth edition of "Theories of Human Learning: What The Professor Said".
