## ABRAHAM LINCOLN AND THE UNION A CHRONICLE OF THE EMBATTLED NORTH VOLUME 29

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Original publisher: Washington, D. C. : National Aeronautics and Space Administration, Office of Management, Scientific and Technical Information Program, 1992. OCLC Number: (OCoLC)58725925 Excerpt: . . . 2. 3 Geolnetries with a continuous spectrum of a deterministic or random nature of surface imperfections which have a continuous spatial spectrum, and, there-Now, considertile class fore, cannot be classified as discrete-mode waviness. Assunfing the spectrum to be homogeneous in the streamwise direction, one can integrate over all contributions of the folm ( 2. 1, ib ) in order to arrive at the total coupling coefficient for any particular geometry. In addition to its dependence on the power spectral density  $R_0$  ( awl ) of the surface-irregularity distribution, the coupling coefficient also depends upon the relative phase distribution,  $0$  ( aw, ), between the dilferent wavenumber components of the surface undulations. llowever, an obvious conclusion that holds for all geometries with a continuous spatial spectrum is that the integrated coupling coefficient is  $O$  ( R. . ls ) times smaller than the discrete mode solutions ( 2. 12 ) and ( 2. 14a ), since the bandwidth in the at space which can contribute signifi-cantly to this integral is only of  $O$  ( R : s ). This makes the overall receptivity even smaller than that induced by an isolated roughness element with a comparable perturbation in height. Note that the receptivity is stronger for the discrete mode waviness of the form ( 2. 3 ), because the latter represents a peak in the spatial spectrum of the surface irregularity near the resonant wavenumber, and, thus, possesses more energy in the relevant band of wavenunlbers. Lacking a precise knowledge about the surface irregularities, it is not an easy matter...
