The person-centered approach, his own unique approach to understanding personality and human relationships, found wide application in various domains such as psychotherapy and counseling (client-centered therapy), education (student-centered learning), organizations, and other group settings. These two lectures, first delivered in 1954, comprise the core of his teachings. In 1961 his shorter works would be collected and published as On Becoming a Person. Contents: Some Hypotheses Regarding the Facilitation of Personal Growth What It Means to Become a Person.
